MICKAËL BOVAGNET

Founder and operator • Fractional COO / CRO
Start-ups, scale-ups and SMEs

15	10	400+	1
years of experience	years running a company	industrial clients	funding round closed

PROFILE

Founder who established, led, and transferred a company specializing in industrial 3D printing solutions for over ten years, with more than 400 industrial clients and a team of 10 people, while overseeing financial management, including cash flow management, forecasting, closing a funding round with technology investors, and securing access to public innovation programs. Since 2025, part-time executive for startups, scale-ups, and post-acquisition companies in the structuring, growth, or turnaround phases, particularly in the context of preparing for fundraising and developing financing strategies.

EXPERIENCE

Founder and fractional executive • CxO, Annecy • 2025 - present

Part-time operational, commercial and financial leadership for start-ups, scale-ups and post-acquisition companies in Auvergne-Rhône-Alpes and French-speaking Switzerland.

- Mountain tour operator (Ski Planet): supported a strategic restructuring, ran marketing and sales, hired and onboarded the head of marketing, analysed sales data and led the website overhaul.
- Gaming hardware (Pixminds / Lexip): built a France 2030 i-Démo application, export grant reporting, transfer of a 1,500-piece heritage collection to an institutional partner.
- Medical deeptech (Nova Medicae): financing landscape mapping and fundraising preparation.
- Pet tech IoT (Haya Petcare): business plan, marketing structuring and Bpifrance application.
- Swiss tour operator in creation (Kulmea): financial, marketing and commercial build-out, strategic options analysis for the partners.

Small-cap M&A consultant • Stalwart, Geneva • 2024

Supported a network of agencies from acquisition through development to divestment, advising the operating managers on their day-to-day operations in finance, legal, sales, marketing, HR, management control, accounting and ESG.

Founder and President • Alsima, industrial 3D printing solutions • 2014 - 2024

Created, grew and transferred a distribution and integration company for polymer 3D printing solutions (pre-project studies, equipment sales, training, technical support).

- 400+ clients won, from SMEs to multinationals in France and Switzerland (Rolex, Safran, Thales, Somfy, Danone)
- Funding round closed with tech-focused investment funds and private investors.
- General management across finance, sales, marketing, HR and operations, with engineering led by my co-founder.
- Steered the company through several crisis phases (cash, reorganisation) up to its transfer.
- Designed an in-company technology diagnostic method deployed with industrial clients.
